Helps Repairs and Maintenance workers to...

- Focus on work at hand and reduce time wasted
- Complete additional jobs each day
- Reduce daily travel and visits to stores
- Perform damage assessments using e-forms
- Store critical information offline for access in poor signal areas

Helps manager to...

- Get real time status updates
- Monitor performance by team or individual
- Broadcast information and alerts
- View staff locations via GPS

All information can be enhanced with pictures, detailed with electronic forms and pinpointed with GPS.

All information is automatically synced and stored on office databases – giving managers up to the minute information and alerting the correct people to handle incidents.
