Totalmobile
Digital Workforce Management

Totalmobile are currently recruiting for all levels of Developers.

We currently have opportunities for Developers, Senior Developers and Lead Developers.

Totalmobile Ltd develop mobile working solutions for a wide range of markets in the Local Government, Healthcare and Private Sectors. Our product is designed to improve efficiencies, reduce costs and increase productivity and is multi-platform working natively on all major devices and platforms including iOS, Windows and Android. Working within our development team you will help to expand the capabilities of the Totalmobile platform and can expect to work with a range of technologies that push our mobile platform to the limit. You will be exposed to all stages of the product lifecycle and all aspects of our product set through our SCRUM development process.

The technologies our Development team are currently working with:

- C# / .Net / Java
- Web APi
- WCF
- RESTful Service Design
- Saas
- ASP.net
- Azure
- SQL Server / SQLite
- NUnit / xUnit
- iOS / Android / Windows
- Xamarin
- Visual Studio
- Android Studio
- Angular
- Backbone
- Bootstrap
- UMP
- WINRT
- XML / XPATH / XSD / XSLT

If you have experience in any of the above technologies and are interested in a career with Totalmobile, please email a CV to humanresources@totalmobile.co.uk with "Developer Opportunities" in the subject line of your email.
